-  6. **ELECTRICALLY RESPONSIVE PROMOTER SYSTEM**
SOYKAN, Orhan / MEDTRONIC, INC., PATENT COOPERATION TREATY APPLICATION, Jun 2002
 ...Tet-Off gene expression system, which is commercially available from Clontech. Presence or absence of tetracycline or **doxycycline** will activate the promoter responsible for turning on gene expression. Administration of the activating pharmacological...controlled and local delivery of therapeutically important products. Various embodiments of the present invention provide **solutions** and advantages to one or 10 more of the problems existing in the prior art with respect to delivery of therapeutic products...
